

Our Wish List

The Traverse Bay Children's Advocacy Center brings justice and hope to children and families in the aftermath of an allegation of sexual abuse, physical abuse or witness to a violent crime. For some, the path to healing is clear. For others, the obstacles may seem insurmountable. Regardless of their trauma, their level of need, or their ability to pay, the TBCAC is here to help.

Our wish list includes items to nurture our children — who often arrive at the Center without having eaten breakfast or lunch — as well as supplies that enable staff to provide an organized, sensitive, and fun place for children and families to begin their healing journey.
